

To whom it may concern.

My name is Sam Datta, Co-Founder and Principal at PGV Advisors. We develop strategic partnerships that focus on identifying and implementing value for your enterprise through consulting, back office operations, creating an outsource model for your corporation and raising investment capital for your projects and/or your business.

Over time I have trusted Nozer with information regarding our corporate business, often asking for his opinions and seeking his advice. His knowledge of business situations (thanks to his successful track record of managing companies) is one of the main reasons for his successful relationships with firms like ours that is client focused and track record based.

Nozer has trusted us to raise investment and business capital for his clients. He is a pleasure to work with due to his business acumen, his knowledge of running corporations and above all is ability to make things happen (he does not take NO for an answer), but instead works to find a way to create a win-win situation for his clients and his business associates.

The clients he has introduced us to have nothing but the highest respect for his skills, his compassionate nature and his track record of successfully turning around people and companies.

Nozer, your excellent business skills and acumen coupled with your ability to interact with and win over people has been the reason we all respect you very much. Thanks for being supportive and trustworthy.

Sincerely,

Sam Datta
Co-Founder & Principal
