

*... a next generation Multi-family
Management, Investment & Advisory Company*

November 3, 2019

Besides being an internationally acclaimed speaker, an author of 3 books and a transformational business and life coach, Nozer is a compassionate human being that has guided me and my corporation in the real estate multi-family space.

When we were raising monies for our ventures and were working against a hard deadline, Nozer helped us secure that final desired capital that enabled us to close on our deals. During our many meetings with his investors, it was indeed refreshing to witness the trust and confidence exhibited by his investors. This confirmed his integrity, experience and the transparency which he has always demonstrated to us and to his investor groups.

We at Relik are proud of our association with Nozer, and as a Strategic Advisor to our corporation, are seeking his professional guidance to enable Relik reach our vision & goal of being a \$500M organization soon.

I highly recommend Nozer to any corporation seeking professional advice & guidance in order to grow & stabilize their organization and secure financing for their ventures.
